The Secret of Honest Values

A number of years ago, in looking over business conditions, we came to the conclusion that our greatest asset was not our stock in trade or cash in the bank, but our customers' good will, our reputation for good values and square dealing. We determined to make the name "Cldham" stand as a synonym for "QUALITY"-to stand back of our goods and to see that the goods we sold were right. In studying our sources of supply, we found that some makers did business that way too; and some did not. But the ones we could rely on were the ones who put their NAMES in their goods and said always "These are ours, we made them, they're right and we will stand behind them"

And So We Have Clothes From
